

ABHIJEET RAJBHAR

MERN STACK DEVELOPER

Uttar Pradesh, India | abhijeetrajbhar436@gmail.com | github.com/Abhijeetrajbhar | linkedin.com/in/abhijeetrajbhar

PROFILE

MERN stack developer building secure, scalable web applications across responsive React interfaces, REST APIs, authentication, role-based access, payments, and data-driven workflows.

TECHNICAL SKILLS

Core: React.js, JavaScript, Node.js, Express.js, MongoDB, REST APIs, Tailwind CSS, Git & GitHub

Additional: Redux Toolkit, Material UI, JWT, RBAC, Stripe, SQL, Postman, Multer, TypeScript, Prisma

PROJECTS

HealthGuardian | MERN Stack, JWT, RBAC, Multer, AI Integration

- Built a deployed healthcare platform with patient and doctor workflows, protected routes, uploads, and AI-assisted recommendations.
- Implemented secure authentication and role-based access to keep each workflow focused and protected.

RestroOne | React.js, Node.js, MongoDB, Stripe

- Delivered a responsive food-ordering flow covering product discovery, cart state, authentication, and checkout.
- Integrated Stripe payments and maintained consistent customer state across the ordering journey.

School Management System | MERN, TypeScript, Prisma, Tailwind CSS

- Designed a modular platform foundation for attendance, assignments, grading, authentication, and administration.

EXPERIENCE

MERN Stack Developer | Personal & Academic Projects | 2024 - Present

- Delivered two publicly deployed full-stack applications and multiple role-aware product workflows.
- Applied secure authentication, REST APIs, responsive UI, Stripe payments, and AI-assisted features.
